

Memorandum

November 20, 2013

To: The Klamath Basin Task Force

From: John Bezdek, Department of the Interior

Subject: Federal Authorities to Implement the Klamath Basin Restoration Agreement

The attached table has been prepared by staff at the Bureau of Indian Affairs, Bureau of Reclamation, Bureau of Land Management, National Marine Fisheries Service, U.S. Fish and Wildlife Service, U.S. Forest Service, and U.S. Geological Survey.

The Federal agencies determined that eleven of the 113 KBRA line items need new authority from Congress before they can be implemented¹. These programs are:

- Line item 66: the On-Project Plan;
- Line item 68: remedy for ground water impacts associated with On-Project Plan²;
- Line item 70: development of the Water Use Retirement Plan;
- Line Item 71: implementation of the Off-Project Water Use Retirement Program;
- Line item 72: the Interim Power Sustainability Program;
- Line item 73: authority for Reclamation to provide the Federal Power Program to Off-Project Irrigators³;
- Line item 74: Energy Efficiency and Renewable Resources Program;
- Line item 75: new authority for Off-Project portion of Renewable Power Program and Engineering Plan⁴;
- Line item 79: the Drought Plan Restoration Agreement Fund;
- Line item 83: the Off-Project Reliance Program⁵; and
- Line item 89: new authority for the Off-Project portion of the Interim Flow and Lake Level Program⁶.

Based on the draft 2013 KBRA cost revisions developed by the Non-Federal Parties to the KBRA, we estimate that these new authorities have a total cost of \$250 million in 2014 dollars. For those items where the Federal agencies have existing authorities, in many cases additional appropriations are needed to implement the line items.

¹ This analysis focused on new authorities related to the KBRA Appendix C-2 cost estimates prepared by the Non-Federal Parties; it did not address other authorities that may be needed to implement the KBRA.

² This provision would be addressed as part of the On-Project Plan; no funding is included in the cost estimates.

³ Assumed 40 percent of the funding is related to the new authority.

⁴ Assumed 40 percent of the funding is related to the new authority.

⁵ Funding for this program may use reallocated funds; funding is not included in KBRA cost estimates.

⁶ Assumed half the funding is related to the new authority.
